

Europe's largest manufacturer of
plant safety systems

Prolec 2D Guidance

Add-in

2D Essentials (app only)
and 2D Standard

We are excited to unveil our revolutionary safety systems, now with integrated 2D guidance, all conveniently accessible on one screen.

As the exclusive provider of this groundbreaking technology, we bring you the first ever one-screen-solution that seamlessly combines enhanced safety and productivity, setting you apart in the industry.

At Prolec we are dedicated to ensuring your safety, boosting productivity, and eliminating cab clutter.

Safety and 2D combined in one simple screen:

Dig to plan with hazard avoidance

Automatic grade checking

Eliminate rework costs

Simple and fast installation

Reduce co-worker risk

Industry leading screen for ease

Fewer screens

Plug and play - no antenna

No Compromise - dedicated safety ECU
